changing the way we give

Gifts that make a difference

Changing the way we give

The true value of a gift is determined by the emotional impact is has on the recipient and the meaning it holds for both parties involved. It is not solely about the material worth, but rather the thought, care and sentiment behind the gesture. We think that bringing the impact a gift has on our planet into the equation, only adds value to a gift.

iqoniq

Recycled materials

All year round collection (unisex & gender)

Fully traceable & block chain verification by AWARE™

Each product has a digital passport & environmental footprint

2% donation to Water.org

OEKO-TEX®

OEKO-TEX® STANDARD 100 is one of the world's best-known labels for textiles tested for harmful substances.

Cutting waste used in our fabrics is not certified. That is why we have all our fabric components tested by an OEKO-TEX® authorised laboratory for harmful substances. Every Iqoniq article is OEKO-TEX® certified, harmless to human health.

Made responsibly

As part of our continuous effort to improve working conditions in the supply chain, we ensure all our Iqoniq products are manufactured in production facilities with a valid social audit according to the amfori BSCI auditing framework and Code of Conduct. This framework upholds strict social standards in line with international conventions like the Universal Declaration of Human Rights and International Labour Organisation (ILO).

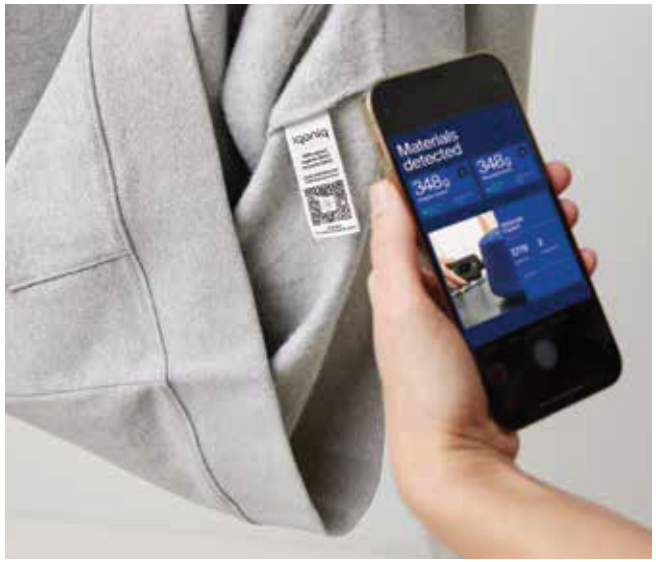
Water.org

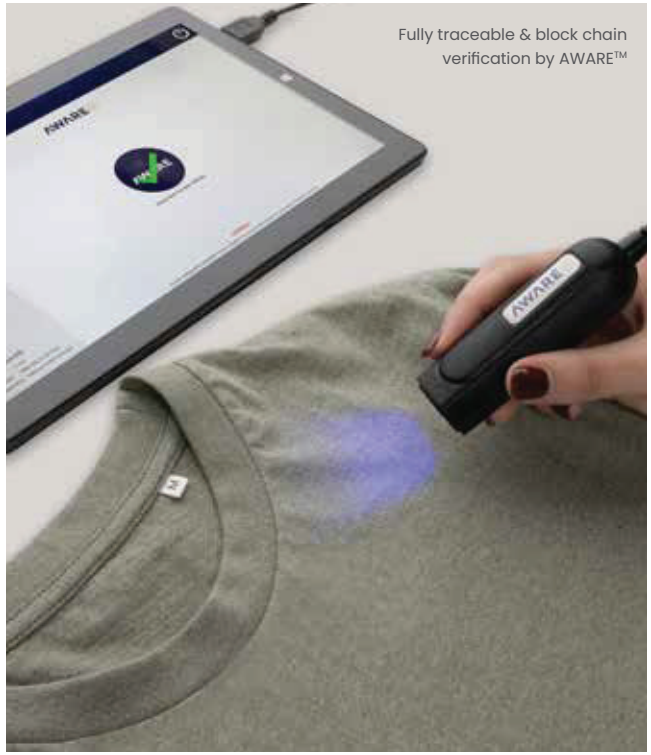
Water.org is a global non-profit organisation working to bring water and sanitation to the world. Water.org believes water is the best investment the world can make to improve health, empower women, enable access to education, increase family income and change lives. Yet, 771 million people lack access to safe water. We support water.org by donating 2% of product proceeds of each product sold from the Iqoniq collection.

Fully traceable & block chain verification by AWARE™

How can you be sure that the sustainability claims we make are trustable? We aim to avoid greenwashing and prove that final products are made from sustainable materials.

Therefore we teamed up with Aware™, a traceability platform that makes data public to track and validate the end-to-end impact of sustainable textiles from origin to you. Powered by tracer and blockchain technologies





Fully traceable & block chain verification by AWARE™

Digital Product Passport (DPP)

All Iqoniq products have an Aware™ Virtual ID that gives you complete transparency and the facts of your choices. The Aware™ blockchain application is making trusted impact data public and available for final consumers with a simple scan or QR code.

The data is directly from the makers of the products, the producers. All impact data and the complete journey of each garment are given.

Goodbye, murky claims.
Hello, crystal clear impact facts!

OEKO TEX® STANDARD 100 2303045 Centexbel

Creating memories

Offering design that creates memories for life is what drives us. We're sure there are objects in your life that still awake strong feelings in you. The backpack you had on your favourite trip or the cast iron pan your family always made pancakes in. Our vision is to recreate these memories for you and generations to come by offering our customers Scandinavian design for home and leisure activities.
